

# Bringing Out the Best in Hardwood Floors

[Bona.com](http://Bona.com)

**Bona**<sup>®</sup>

For nearly 100 years, Bona has innovated and created beautiful floors from large commercial projects to custom home design. With an array of stunning hardwood floor stains and natural penetrating oils to rich texture techniques like wire brushing, Bona has worked with architects and designers across the globe to make every project perfect. Bona is the only manufacturer that offers a full system of products that work together to save time, ensure quality and ultimately, create the exact look for your floors.

In addition to our commitment to artful aesthetics, Bona is an innovative, environmentally conscious company and the first in the industry to offer a full system of durable, waterborne hardwood floor finishes certified for indoor air quality by GREENGUARD. From installation to renovation Bona offers adhesives, finishes, sealers, stains and more to create beautiful floors.

With headquarters in Malmo, Sweden, Bona is the foundation of floors across the world including the National Portrait Gallery in the U.K., Copenhagen Airport in Denmark, Singapore Art Museum, Nike World Headquarters in Oregon, U.S.A. and specified by the National Basketball League (NBA).

## About Bona

The enclosed information covers a wide range of Bona products including stains, finishes, adhesives, sealers, techniques and natural penetrating oils. We've also included specification information and technical data sheets. If for any reason you don't see what you need, please contact us.

**Bona**<sup>®</sup>

For architects and designers across the globe, Bona has provided professionals with premium products and systems developed to maintain the natural beauty of hardwood floors. Each and every Bona product works in tandem to create perfect floors every time. With nearly a century of experience innovating, studying and perfecting the Bona System we stand behind everything that we do.

The Bona System<sup>®</sup>

## Bona Waterborne Finishes

For exceptional durability, high performance and low environmental impact, Bona Waterborne Finishes are the best in the industry. We formulate finishes that deliver on the needs and varying environments of hardwood floor installation and lifespan. Bona finishes also provide a healthier environment with lower VOCs and GREENGUARD Certification. Easy to use and apply, Bona finishes offer excellent flow, leveling and de-foaming properties with a range of sheen options.

## Bona Adhesives

Bona Adhesives are the perfect choice for installations on a variety of sub-floor materials. Formulated with the perfect balance of elasticity and strength, Bona Adhesives are GREENGUARD GOLD Certified, allowing for a safe installation environment. Unlike other adhesives that can be too rigid or too flexible, Bona Adhesives mimic the natural movement of wood.

## Bona Stains and Sealers

When it comes to design, color is king. Bona Stains and Sealers do more than just make floors look beautiful. Bona sealers provide durability formulated specifically for the needs of hardwood floors with an infinite range of color options that can be custom mixed to bring out wood's natural beauty. Bona Stains and Sealers are GREENGUARD Certified for indoor air quality as part of the full Bona system.

- **Bona Sealers:** Made to both penetrate and seal the floor Bona Sealers add a top layer for the ultimate in finish protection and beauty.
- **Bona DriFast® Stains:** With four inspiring collections that include 26 unique colors, the Bona DriFast Stain Collection creates the perfect color for any hardwood floor. With better coverage than others in the industry, Bona DriFast Stain is also easy to use and apply.
- **Bona Craft Oil® 2K:** This highly versatile natural penetrating oil provides a natural, organic look with a rich patina and is ready for light use in just 8 hours. Over-coatable with any finish in the Bona Traffic family, Bona Craft Oil 2K is easy to apply, penetrated deep into floors and can be custom blended for the perfect shade.

# The Bona System®

## Bona Abrasives

Bona has innovated abrasives specifically made and tested for hardwood floors. Developed to work perfectly with hardwood, Bona Abrasives are just aggressive enough to do the job yet still offer a smooth finish. The perfect surface provides the perfect foundation for stains, sealers and finishes. Bona Abrasives are GREENGUARD Certified for indoor air quality as part of the full Bona system.

## Bona Machines

Traditional hardwood floor sanding is an extremely dusty process. Bona Sanding Machines are optimized for dust containment to create a clean, quick-turn project. From our sanders, edgers and buffers, Bona Sanding Machines are designed to be used with Bona Abrasives. Bona Sanding Machines are GREENGUARD Certified for indoor air quality as part of the full Bona system.

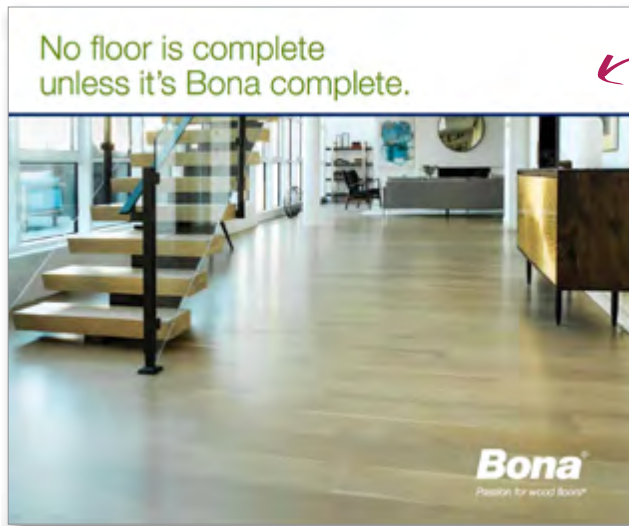

## Bona Textures

Wire brushing a wood floor opens the wood grain and enhances the beauty of hardwood floors creating a unique texture and feel. Bona Wire Brush Technology, innovated to work with the Bona® FlexiSand Power Drive™ offers this unique, custom look for hardwood floors.

With a focus on design and performance, Bona offers solutions formulated that work together to provide beautiful and durable wood floors in any space.
